EXECUTIVE SUMMARY

Why Choose WordPress?

This proposal covers the design, development, and deployment of a complete corporate website on **WordPress CMS** with a fully custom Bootstrap 5 theme — no page-builder lock-in. The result is a fast, SEO-optimised, easily maintainable website that the client team can update without developer involvement.

Delivery Platform

WordPress 6.x · Custom Bootstrap 5 PHP theme (no page builder) · Hostinger Business Shared Hosting (auto-SSL, LiteSpeed cache) · Razorpay payment gateway.

SCOPE OF WORK

What's Included

11 Pages

Home, About, Services (grid + detail), Team, Careers, Blog, Contact, Downloads, Pricing, Signup

Custom WordPress Theme

Bootstrap 5 responsive theme; no Elementor; fully branded corporate design

5 Custom Post Types

Services, Team, Jobs (Careers), Downloads, Testimonials — managed from WP Admin

Razorpay Payment Gateway

3 pricing plans, order creation, signature verification, webhook, success/fail pages

Blog / CMS

Native WordPress blog with categories, tags, featured images, author profiles

Contact & Newsletter

AJAX contact form, job applications, newsletter subscriber list in WP Admin

SEO Ready

Yoast SEO plugin, XML sitemap, Open Graph, schema markup, Lighthouse >90

Security

Wordfence, login protection, nonce verification, input sanitisation

Performance

LiteSpeed cache, image compression, lazy loading, CDN-ready, Core Web Vitals optimised

Google Integrations

GA4 analytics, Google Maps embed (contact page), Search Console verification

Admin Settings Panel

Custom WP Settings page for company info, Razorpay keys, GA4 ID, Maps API key

Fully Responsive Design

Mobile, tablet & desktop — tested on iOS, Android, Chrome, Firefox, Safari & Edge

Mobile · Tablet · Desktop — All Included at No Extra Cost

Built with Bootstrap 5's responsive grid and tested across all major screen sizes. No separate mobile version required — one codebase adapts automatically.

Not Included in This Proposal

E-commerce (WooCommerce), native mobile apps, CRM integration, multilingual setup. These can be quoted separately.

Razorpay Transaction Fees

Razorpay is integrated as the payment gateway for subscription/plan payments. There are **no setup fees** — costs are purely transaction-based, charged per payment collected. These are variable and paid directly to Razorpay.

How Razorpay Charges Work

Razorpay deducts its Transaction Discount Rate (TDR) automatically from each payment before transferring the balance to your bank account. You do not receive a separate invoice — the fee is deducted at source.

Payment Method	TDR Rate	Notes
Account Setup	—	FREE — No setup fee for standard accounts
Domestic Cards (Debit / Credit)	2% per transaction	Standard rate for Visa, Mastercard, RuPay
UPI / BHIM	0% (currently)	Razorpay currently charges 0% on UPI transactions
Net Banking	2% per transaction	All major Indian banks supported
Wallets (Paytm, PhonePe, etc.)	2% per transaction	Subject to wallet provider terms
International Cards	3% + GST	Requires prior Razorpay approval
EMI (Credit Card)	3% per transaction	Bank EMI; no-cost EMI may vary

Approximate Annual Cost by Payment Volume

Based on 2% avg TDR (assuming primarily card + netbanking payments). UPI transactions reduce actual cost significantly.

GMV ₹1 LAKH/YR

~₹2,000

Starter / Low volume

GMV ₹5 LAKH/YR

~₹10,000

Moderate volume

GMV ₹10 LAKH/YR

~₹20,000

Growing business

 Important Note

Razorpay fees are entirely variable — based on your actual transaction volume and payment methods used. The above are estimates only. If a significant portion of payments are via UPI, your effective TDR could be near ₹0. Atreya SoftTech has no control over or liability for these charges.
